HIGH SCHOOL PRIVILEGES.

"Any eighth grade graduate residing in a non-high school district may attend any recognized two, three or four year high school, and his tuition shall be paid by the board of education of the non-high school district in which he resides.

An eighth grade graduate in the meaning of this Act is any person of school age who gives satisfactory evidence of having completed the first eight grades of school work by presenting a certificate of promotion issued by the county superintendent of school or by passing an examination given by the school attended.

A recognized high school in the meaning of this Act is any public high school providing a course of two or more years of work approved by the Superintendent of Public Instruction.

The tuition paid shall in no case exceed the per capita cost of maintaining the high school attended, excluding therefrom interest paid on bonded indebtedness, which shall be computed by dividing the total cost of conducting and maintaining the said high school by the average number of pupils enrolled including tuition pupils."

School Libraries.

I am indeed sorry that so many rural districts report none or very few books in the library. Rural pupils more than urban pupils need larger perspective, and this may be gained through no better medium than books. Each district should have a set of supplementary readers, histories, geographies as well as a few instructive and interesting story books to supplement the regular branches.

A Library for Every School.

"In the past we have thought relatively too much about teaching people how to read and not enough about getting them to read after they learn how.

To develop the 'reading habit' in each pupil should be one of the chief aims of every teacher. Train any child so he likes to read, so he is a real book lover, and he will educate himself if he ever goes to school another day. Moreover, if a school has a good library, it should aid greatly in educating the older people whose school days are over, but whose learning days should never be over. The saying of Thomas Carlyle, 'The true university of these days is a collection of books,' cannot be too often repeated."

One-Room and Consolidated Country School Circular—State Dept. Public Instruction.

(Pages 11-12)

Probably the strongest influence that can be brought to bear upon the child to turn his thoughts and purposes to the living of a right life is found in the reading of good books. Through reading he becomes interested in what has been done and what may be done to make life better. His aspirations are awakened, his ambition aroused, and he seeks to realize in his

own life work and conduct the things in which he has become interested. Good books become his teachers and have the same influence upon the growth of his character that does the companionship of worthy people. To supply this need the Illinois Pupils' Reading Circle has been organized. A small library of books, selected from its list, may be made of great benefit to the children.

Renewal of Teachers' Certificates.

The Illinois Examining Board allows credits in the renewal of teachers' certificates as follows:

(a) One credit for each five dollars worth of Pupils' Reading Circle or other approved books added to the school library.

(b) Ten credits for proper supervision of Pupils' Reading Circle work and directing home reading.

School Boards Authorized to Purchase Libraries

Section 115 of the School Law of Illinois provides for the appropriation of school funds for the purchase of libraries after the provision has been made for the payment of all necessary school expenses.

It is not lawful for any person to teach in the public schools of this state unless he or she has a valid certificate covering the time of such teaching. This applies to substitute teachers as well. Do not ask some one to teach for you who has no certificate.

I think every rural teacher should be at school by eight o'clock A. M. especially in cold weather. It is their duty to have the school room heated to at least 68 degrees Fahrenheit by 8:30 A. M. For this reason, as well as various others, it is to the best interests of the teacher and the school for a rural teacher to board in the district.

Directors and teachers sometimes criticize the new heaters which have been installed, when it develops that the teacher does not understand the mechanism. If you have trouble with the stove ask some one whom you are certain understands such things to give you some suggestions. In most cases, a letter to the person or firm from which the stove was purchased will be answered either with helpful suggestions, or some one will be sent to remedy matters. Do not let the children suffer when a few words might put an end to the trouble. When the teacher leaves the school room in the afternoon, the fresh air intake, and the foul air outlet should be closed in order to keep the room warm over night.

Teachers and directors occasionally have misunderstandings over the length of the school month, holidays, etc., and for their benefit I wish to say that the school month is identical with the calendar month, i. e. if school commences on September 1, the school month will end the evening of September 30. If any days are lost from any cause, they should be made up at the end of the term rather than at the end of the month; in this way, no complications will

arise. The legal holidays in this state as given on page 68, section 188 of the School Law of Illinois says: "The school month shall be the same as the calendar month. But a teacher shall not be required to teach Saturdays or legal school holidays which are January 1st, the fourth day of July, the twenty-fifth day of December and any day appointed by the President or Governor as a day of fast or thanksgiving, and no deduction shall be made from the time or compensation of a teacher on account of such days."

The writing in the schools of this country is not being given the amount of attention it should. With the exception of a few city schools, there seems to be an attitude of indifference among the teachers as to the appearance of a pupil's paper, when in truth, looks should be on a par with correctness. The adoption of some system of writing is the best remedy for this evil, and the A. N. Palmer Method of Business Writing is the one recommended for use in this county. This system has a Service Department and I ask that every rural teacher enroll in this service.

Agents

Ever so often agents make the rounds of the Counties of the State to call upon teachers and school officers to sell "something." Agents who are four-square should have the confidence and patronage of those who are in the market for needed things of standard type. Agents of questionable business tendencies should be dismissed on the spot. Time is too valuable to waste on them.

For the sake of safety, justice and economy, do the following judiciously:

1. Investigate the character and business methods of the agent before you are caught.

2. Consider whether you really want and need what the agent has to sell.

3. Ascertain whether the price is right.

4. If the agent says, "The county superintendent of schools recommends it," please phone to the office and learn the truth. One hundred to one, the chances are that all such statements are false.

5. Please remember that I do not give agents testimonials. If what they have to sell cannot stand the test of "real merit," no one has the moral, or business right to prop things up with testimonials. No testimonial or recommendation can read goodness, or superior merit, into anything in which those qualities appear on the surface, only.

6. Please bear in mind that there is nothing so surpassingly good that you must have it immediately. Let no one force, or stampede, you into purchasing anything. Let no glib, smooth, and forceful talker make you feel that you are "nobody" if you will not make the purchase.

Stand on both feet and assert your rights and your intelligence and manhood and womanhood. Take time to think and investigate. Action should never precede thought and investigation. It does not take long to phone, or write, for information. What are these privileges for if we do not use them before it is too late? Good people will respect this measure of caution and business acumen,—about others you need not care.

7. Do not allow any agents to encroach on school time. This time belongs to the boys and girls. It should be kept inviolate for this purpose.

8. Do not allow agents to impose upon you in any way whatever. Stand for your rights and be as firm as they are insistent and eloquent. You are the most important of their proposed transaction. Why not carry out a definite program which will terminate matters to your liking?

9. If agents say that I said "so and so," please ask them to put it in writing for you so you may send it to me. If they refuse, please take it down yourself and send it to me together with the name of the agent. Falsifying and misrepresentation will not be tolerated.

10. Refuse to be the prey of unscrupulous men and women.

11. Beware of the beguiling words and arguments of total strangers who live where you cannot get at them after they have "done" you.

12. It is my sole purpose to help you, but you must also learn to help yourself for your own growth, protection and security.

13. Above all "cut out cornfield contracts as they are illegal, business to be done legally, must be done at a regular meeting or at a call meeting for the particular purpose so stated. Boards of Education or Boards of Directors are liable if they do business in any other manner and should be held responsible.

Please put all of these suggestions into operation the very next time. This office stands ready to do for all school interests what it can, in and out of season.

Provisional and Emergency Certificates.

(a) When a county superintendent finds, after the last regular examination preceding the opening of school there are not enough regular certificated teachers in his county to teach the school, he is authorized to issue provisional certificates to a sufficient number of candidates from his or other counties, who have fallen below the required grades, to meet the deficiency.

(b) A provisional certificate cannot be issued a second time to the same person.

(c) The county superintendent is authorized to issue in an emergency, any kind of a county certificate to an applicant furnishing evidence of the possession of the prerequisites and qualifications for such certificate. It shall be

designated on its face "Emergency," and shall be valid only until the next regular examination.

(d) An emergency certificate shall be issued only to a person who has been engaged to teach, and shall not be issued a second time to the same person in the same year, except upon the written recommendation of the county superintendent, approved by the Examining Board.

Validity of Certificates.

(a) A first and second grade certificate, a high school certificate, a supervisory certificate, a kindergarten-primary certificate, or a special certificate shall be valid in the county of issue, and in any county of the State when endorsed by the county superintendent of such county.

(b) A provisional certificate authorizes the holder to teach in the first eight grades only.

(c) A second grade certificate authorizes the holder to teach in the first eight grades and in the ninth and ten grades when endorsed for the same by the county superintendent of the county in which the teaching is to be done.

(d) A first grade certificate authorizes the holder to teach and supervise in the first ten grades, and in the high school, when endorsed for the same by the county superintendent.

(e) A high school certificate authorizes the holder to teach and supervise in the high school and in the seventh and eighth grades.

It is valid for the position of principal or superintendent of a school requiring less than half time for supervision.

(f) A supervisory certificate authorizes the holder to supervise a system or any part of a system of schools and to teach in the same.

(g) A kindergarten-primary authorizes the holder to teach or supervise in a kindergarten and in the first two grades.

(h) A special certificate authorizes the holder to teach or supervise the teaching of the subject or subjects named in the certificates.

(i) Provisional and second grade certificates are only valid for teaching, and not for supervising the work of other teachers.

(j) A supervisory certificate is necessary when a teacher is employed to use more than one-half of his time in supervising an entire system of schools.

Schools as a Collecting Agency.

For many years prior to the opening of the war public school officials throughout the country had sought to banish from the public schools the collecting of money. The position taken by most school officials was that however meritorious the cause it could not justify the harm done by collecting money from the children. There are many sound reasons which may be assigned in support of this point of view. Parents very generally object to allowing their children to carry money to school for any purpose. The temptations involved are great and are well understood by everyone who under-

stands children. Again, any attempt to collect money from school children leads to uncomfortable and disquieting classification and discriminations. Sometimes the children whose parents are least able to give the money are the ones most active in order that they may not be looked upon as ungenerous. It is also noticed that the children of those who are most capable of making contributions are often the ones whose offerings are very modest, and it is not infrequent that they are the ones who make no offering at all. The war brought unusual conditions and made unusual demands upon all our institutions. The public schools met these demands whether they ran counter to established school policies or not. However, the war being over, it is well for those in charge of our schools to return to the plan shown to be the wise policy, and refuse to allow any collections to be made through the public schools, however meritorious the object may be.—F. G. Blair, Supt. of Public Instruction.

The time which elapses between the day an individual gets the disease germ into his body and the day when the real symptoms of the disease appear is called the Period of Incubation.

Disease:	Incubation Period:
1. Chicken pox.....	11 to 22 days
2. German measles.....	11 to 22 days
3. Measles	8 to 15 days
4. Mumps	15 to 22 days
5. Scarlet fever.....	7 days
6. Whooping cough.....	14 days

The time of the duration of a communicable disease should be a period isolation for the individual having it.

Disease:	Isolation Period:
1. Chicken pox.....	12 days
2. German measles.....	8 days
3. Measles	10 days
4. Mumps	14 days
5. Scarlet fever.....	30 days
6. Whooping cough.....	56 days

After an individual has recovered from a communicable disease, health authorities should disinfect the room, or house, thoroughly.

Disinfection is the treating of anything with chemicals for destroying disease germs. It is the process of purification from any infecting matter.

Fumigation is the using of certain fumes for the purpose of disinfecting.

The Closing of Schools and the Teachers' Pay.

It has been ruled that when schools are closed on account of the prevalence of communicable diseases the teachers are legally entitled to their pay if they hold themselves in readiness at all times to teach. However, if the school is closed in good faith on account of the exposure of teachers to communicable diseases to which the school is not exposed, the teacher must stand the loss of time, or else make up the same.

Whispering.

Teachers should eliminate whispering. From the creation of schools, no one has ever advanced a single substantial reason for whispering during school hours. What does whispering disclose anyhow?
